2. PERFORMANCE OF THE COMPANY:

Uncertainty in economic conditions around the world has resulted in reduced sales during the year under review. Given the circumstances, our Company was still able to overcome some of these hurdles and has achieved better performance compared to last Fiscal year 2018-19. The Company's profitability was affected adversely by a squeeze on the margins, brought about by the sluggish market conditions. Company continued to focus on the Thin Client business and this segment turned out to be a major revenue earner this year too.

LOCKDOWN-COVID 19 AND ITS IMPACT ON THE BUSINESS

It is quite unfortunate and sad that Corona Virus has caused significant health concerns across the Globe and resulted in multiple deaths. Social distancing being the only and the first compulsory remedy, substantial part of the World was forced to observe Lockdown. Thanks to early initiatives taken, India declared Lockdown from 24th March 2020 and extended till 31st May and then lifted the same gradually. Your Company complied with the directions of the Government of India, the Government of Maharashtra, Government of Karnataka and the relevant authorities and strictly adhered to the Lockdown in its facilities and at all Offices. The employees, vendors, customers, outsourcing agencies, Consultants and other acquaintances had to suspend their operations almost fully.

FUTURE PROSPECTS

The Company's Future would depend on its ability to maintain competitiveness in global thin client market with respect to price. It is our belief that "thin client" will continue to grow and become even more prevalent among computer users of all types. Long term market drivers such as the push to virtualisation technology, a transition from PC to thin client and sustained economic expansion are expected to push the demand for thin client during the year 2020-21.

However, Work from Home introduced by the corporates may dampen the requirement of thin clients

Current trends like cloud computing and virtualisation help us growing and add further values to our cost effective and remotely manageable Thin Clients.

36. MANAGEMENT DISCUSSION AND ANALYSIS:

ECONOMIC SCENARIO AND OUTLOOK

The Year 2020-21 starts with a lot of uncertainties due to COVID- 19 situation. It has created alarming issues for mankind and businesses. Never in the history has anyone seen such an unprecedented nature of a global pandemic, and it is unknown to all as to how long and how deep this would hit the humans and the businesses. The continuous lockdown situation in the first few months of the pandemic has put all activities of the companies in disarray. The decision to start with few activities as mandated by the Governments has not helped to make good start of operations.

The supply chain is disrupted, its suppliers and customers facilities are not fully operational as we write this report.

The GDP estimates for the country from all quarters seem to be projecting a significant contraction by almost 4% to 5% for the FY 2020-21. Underutilization of existing capacities and liquidity is a big issue, and it will impact the pace of growth of capital goods industry. This is a year of unpredictability for all the businesses and your Company is no exception to it. However, the Company has the inherent ability to act and respond to the ever-changing external developments from time to time.

INDUSTRY OUTLOOK AND OPPORTUNITIES

IIP & PMI have historically been good indicators for business sentiments in Capital Goods Order Intake. The forecast for both IIP and PMI is significantly down. This is expected to have a large-scale impact on the Company's performance in future. India had witnessed the COVID 19 on an already subdued economic scenario and this has made matters worse. GDP growth of 7% in 2018-19, had declined to 5% in 2019- 20 and projection for year 2020-21 is negative. It reflects the state of the current Indian economy. Work from Home culture started during the pandemic may dampen the demand for thin clients. While business activity of India is expected to witness a reduction during 2020-21, a slow recovery in the business is expected in the year 2021-22.

In the long term, the Government spending on Railways, Defence and Infrastructure, and the FDI investments in various other sectors shall continue to play an important role in the revival of the economy.

VXL Instruments Limited

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

12. Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.
13. As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:
- * Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - * Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
 - * Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - * Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosure is inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
 - * Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
14. Materiality is the magnitude of misstatements in the Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.
15. We also communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings that we identify during our audit.
16. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

5 Disclosures pursuant to Ind AS - 116 “ Leases” :

The Company's Lease asset classes primarily consist of leases for Land and Building . The Company assesses whether a Contract contains a lease, at inception of a Contract. Effective April 1, 2019, the Company adopted Ind AS 116, Leases and applied the standard to all lease contracts existing on April 1, 2019. A contract is or contains , a lease if the contact conveys the right to control the use of an identified assets for a period of time in exchange for consideration .To assess whether a contract conveys the right to control the use of an identified asset , the Company assesses whether: (i)the contract involves the use of an identified asset , (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset (“ROU”) of and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates of these leases.

The effect of this adoption is insignificant on the operating profit, net profit for the period and earnings per share. Ind AS 116 resulted in an increase in cash outflows from financing activities on account of lease payments.
